# BetterBe 3 Cost estimation

| User story | Cost estimation (difficulty level) |
|---|---|
| **MUST** | - |
| As a leasing company, I want to be able to add the most recent vehicles, their options and relations so that the website will always be up to date | 3 |
| As a system, I want to prevent impossible configurations and/or options to overlap (e.g. two colours for 1 car) so that customers only can configure possible vehicles. | 13 |
| | |
| As a customer, I want to see the price for a configured vehicle so that I know how much I must pay for the chosen configuration. | 2 |
| As a user, I want to be able to request a specific car configuration after time passes, so that I can configure a configuration I was working on earlier. | 8 |
| As a customer, I want to be able to apply options to a vehicle, so that I can see how each option affects the leasing price. | 1 |
| As a customer, I want to order a specific configuration, so I can get a leasing contract. | 3 |
| As a customer, I want to retrieve specific configuration from the past to be able to track the price changes. | 8 |
| As a customer I want to know make, model, year of production of the specific vehicle as well as to know its base monthly lease price. | 1 |
| **SHOULD** | - |
| As a customer, I want to see a message that a certain quote that I used in the past is impossible to be requested, because the configuration has become unavailable. | 13 |
| As a system, I want to prevent anyone who's not an employee from editing vehicle information (from corporate side), to ensure security. | 13 |
| As a leasing company, I want to set how options affect base configuration price, so that customers will see the price of the current configuration. | 3 |

| | |
|---|---|
| As a customer, I want an account so that I can see my past configurations and get updates for them. | 8 |
| As a customer, I want to be able to search for the specific vehicle or configuration to find the suitable configuration faster. | 8 |
| **COULD** | - |
| As an employee I want a user-friendly interface so that I can easily add changes. | 8 |
| As a leasing company, I want to track the stock of the vehicle with their possible options. | 13 |
| As a customer, I want to be able to contact the leasing company. | 1 |
| As a software provider, I want to suggest leasing companies to choose their own designs of the product (e.g., colour pallet) | 13 |
| As a software provider, I want to place credentials to the product. | 3 |
| As a user, I want to have a friendly and self-explanatory interface to navigate the website faster and more effectively. | 8 |
| As a customer, I want to be able to filter the configuration by a specific option (e.g. colour, make, brand) so that I could group the desired configurations. | 8 |
| As a customer, I want every option to have its price next to it so that I can see the price difference between 2 options easily. | 2 |
